Brian Veeneman is a member of the Firm's Litigation & Dispute Resolution Service Team. He maintains an active litigation practice representing primarily public and private construction owners, general and specialty contractors, material suppliers, design professionals and bonding companies across the country on engineering and construction-related issues. His work involves counsel regarding contract drafting, standardization and negotiation while providing advice to project participants prior to commencement of the project. Mr. Veeneman also resolves problems arising either during a project or post-project completion including issues relating to scope, defective design or construction, scheduling or delay, safety (OSHA), prevailing wage, payment, surety bonds, mechanics' liens and project close out, among others. Mr. Veeneman leads clients through all types of dispute resolution procedures, including negotiation, mediation, administrative hearings, binding arbitration, litigation and appeals.
